

TAX EVADERS

Wall Street and corporate America have created a global economic depression—now they're determined to shift the burden of their greed on American working families. Join US Uncut and the United Front Against Austerity in fighting to make Tax Evaders pay!

CLOSE THE LOOPHOLES

Every year, America's most profitable companies – such as Bank of America, General Electric and ExxonMobil – contribute a grand total of \$0 in federal income taxes. Tax havens alone account for up to **\$1 trillion** in tax revenue lost every decade, money that could be invested in K-12 education, colleges, public health, job creation and hundreds of other worthy public programs.

Under current law, U.S. corporations are allowed to defer or delay U.S. income taxes on overseas profits, and are provided foreign tax credits to offset the amount of taxes paid to other countries.

Join US Uncut to close this and other loopholes to bring corporate profits back to America, and make these Tax Evaders pay their fair share!

1% WALL STREET SALES TAX

While working families pay over 7% in sales tax for the necessities of life, Wall Street speculators pay no tax on a yearly turnover of over \$5 quadrillion (5,000 trillion dollars) in derivatives, futures, stocks, bonds and other securities on US exchanges.

A 1% tax on this turnover, equally divided between the federal and state governments, largely solves budget deficits at all levels of government. It also discourages the most dangerous forms of speculation, especially high-speed trading of derivatives, and helps to level the playing field between financial services – which are now in effect subsidized because they are not taxed – and the tangible, physical production of manufactured goods on which our economic survival depends.
